

# ***Chemoxy International Limited***

## ***ELECTRICAL TECHNICIAN***

### **ABOUT US**

Chemoxy International Limited is one of Europe's largest contract manufacturers with over 100 years of operating experience and has two sites on Teesside employing 145 people. We have a long established reputation for technical excellence, confidentiality and EH&S compliance.

Our Middlesbrough site has been carrying out distillations since 1868 and our Billingham site was added to the portfolio in 1994. Chemoxy is now one of Europe's largest providers of custom manufacturing services to blue chip petrochemical and speciality chemical companies as well as to smaller companies with niche applications.

We like to build partnerships with our customers and work very closely with their technical teams to develop innovative solutions to operating challenges. We enjoy long term relationships on many levels with many of our customers and we pride ourselves in our integrity, customer focus and reliability, amongst many other attributes.

### **ABOUT THE ROLE**

This is an exciting opportunity to join our highly motivated Maintenance Team that works to the highest standards of health, safety, environmental protection and quality performance.

The job involves:

- Working as part of the in-house maintenance team across two manufacturing sites at Billingham and Middlesbrough.
- Implementing planned electrical maintenance tasks and repairing equipment on as needed basis to maintain plant availability, reliability & performance.
- Electrical fault identifications and recommendations in order to carry out simple/complex repairs.
- Conducting routine inspection and testing of electrical equipment and systems (e.g. hazardous area, fixed installations, PAT, earthing, etc.) to ensure items are safe for use.
- Implementing plant improvements as identified by the Maintenance Managers.
- Facilitating electrical isolations for maintenance activities.
- Daily input into the Chemoxy computerised maintenance management system.

- Compliance with Health, Safety & Environmental management policies.
- Being part of an on call rota system.

### **REQUIREMENTS**

- As a minimum the successful candidate should have a recognised apprenticeship or electrical/engineering qualification.
- 17th edition regs and inspection and testing would be an advantage.
- Must have chemical plant experience along with knowledge of hazardous area equipment, CompEx.
- Must have a full UK driving license.
- Must be eligible to work in the UK.
- Excellent communication and interpersonal skills.
- Good I.T. skills.

### **LOCATION & PACKAGE:**

- **Location:** Middlesbrough & Billingham.
- **Remuneration:** A competitive starting salary, group personal pension scheme, private healthcare and other competitive benefits.

Chemoxy values the benefits that diversity of thought can bring to its organisation. We are looking for the individual best suited to this role regardless of their nationality, origin, race, colour, religion, gender, sexual orientation, disability or age.

Closing date for applications is: **Monday 10<sup>th</sup> July 2017**. Interviews will be held on **20<sup>th</sup> July and 26<sup>th</sup> July 2017**.

To apply for this role please send a CV and covering letter to: [careers@chemoxy.com](mailto:careers@chemoxy.com)

Your letter must cover the following points:

- Why you would like to work for Chemoxy International Limited.
- What makes you the best candidate for this role.
