

Dimethyl Succinate Di-Ester

Synonyms/Trade names: Dimethyl Succinate

CAS Number: 106-65-0

Packaging: Bulk

Industrial Application: Dimethyl Succinate is used as a chemical intermediate in synthesis.

Specifications:

| Chemical and Physical Properties | Unit | Specification |
|----------------------------------|----------|---------------|
| Purity | % | Min. 98.0 |
| Acid number | mg KOH/g | Max. 0.5 |
| Colour, Hazen | - | 15 |
| Appearance | - | Clear Liquid |
| Water content | % w/w | Max. 0.10 |

Other Chemical Properties:

| Chemical and Physical Properties | Unit | Typical Properties |
|----------------------------------|------|--------------------|
| Boiling Point | °C | 196 |
| Melting Point | °C | 19 |

Safe Use and Handling: For specific safe use and handling information, or to obtain DMS Materials Safety Data Sheet, contact your local Chemoxy representative.

Shelf Life: An approximate shelf life of DMS is 2 years, if the product is stored in the original container, kept tightly closed in a well-ventilated location. As storage and local ambient conditions vary and Chemoxy International Ltd has no control over the practices, procedures and conditions at your or other locations, the shelf life estimate provided here should be used as guidance only. It is not provided as a guarantee of any shelf life.

NOTICE: No freedom from any patent owned by Seller or others is to be inferred. As usage conditions and applicable laws may differ from one location to another and may change with time, Customer is responsible for determining whether products and the information in this document are appropriate for Customer's use and for ensuring that Customer's workplace and disposal practices are in compliance with applicable laws and other governmental enactments. Seller assumes no obligation or liability for the information in this document. NO WARRANTIES ARE GIVEN; ALL IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE ARE EXPRESSLY EXCLUDED.
