

Isoamyl Acetate

Synonyms/Trade names: Isoamyl Acetate

CAS Number: 123-92-2 **INCI Name:** ISOAMYL ACETATE

Packaging: Drums of 175 kg net

Industrial Application: Isoamyl Acetate is part of the **ChemoxyCare** range and can be used as a solvent in surface coatings, electronics, pharmaceuticals, leather treatment, agrochemicals, cellulose acetate, nitrate, etc. It can be also utilized as a flavour and fragrance additive.

Specification:

Chemical and Physical Properties	Unit	Specification
Purity	%	Min. 99.0
Colour, APHA	H.U.	Max. 20
Appearance	-	Clear colourless liquid
Water content	% w/w	Max. 0.1
Acidity, as acetic acid	% w/w	Max. 0.01

Other Chemical Properties:

Chemical and Physical Properties	Unit	Typical Properties
S.G @ 20°C	kg/m ³	0.868-0.876
Boiling range	°C	135-145
Residue on evaporation	% w/w	Max. 0.01

Safe Use and Handling: For specific safe use and handling information, or to obtain Isoamyl Acetate Materials Safety Data Sheet, contact your local Chemoxy representative.

Shelf Life: An approximate shelf life of Isoamyl Acetate is 2 years, if the product is stored in the original container, kept tightly closed in a well-ventilated location. As storage and local ambient conditions vary and Chemoxy International Ltd has no control over the practices, procedures and conditions at your or other locations, the shelf life estimate provided here should be used as guidance only. It is not provided as a guarantee of any shelf life.

NOTICE: No freedom from any patent owned by Seller or others is to be inferred. As usage conditions and applicable laws may differ from one location to another and may change with time, Customer is responsible for determining whether products and the information in this document are appropriate for Customer's use and for ensuring that Customer's workplace and disposal practices are in compliance with applicable laws and other governmental enactments. Seller assumes no obligation or liability for the information in this document.
