

- **Synonyms/Trade names**
- Glutaric Anhydride
- Pentanedioic anhydride
- Tetrahydropyran-2, 6-Dione
- **CAS Number**
- 108-55-4
- **Packaging**
- Drums of 210 kg net

Specification

Chemical and Physical Properties	Unit	Specification
Total Diester Content	%	Min. 98
Appearance	-	Cream to pale yellow solid
Melting Point	-	52 - 56

Safe Use and Handling: For specific safe use and handling information, or to obtain Glutaric Anhydride Materials Safety Data Sheet, contact your local SEQENS Custom Specialties representative.

Shelf Life: SEQENS Custom Specialties recommends retesting the product after a year from the date of manufacture. The date assigns the time frame during which the batch is expected to remain within the established specifications, if stored under SEQENS Custom Specialties defined conditions of the product being stored in the original container, kept tightly closed and in a well-ventilated location.
